REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1, 3-6 and 8-10 is the claim 1 limitation that when it is determined that the distance between the camera and the point in the subject group is less than a predetermined distance, general brightness level of the scene is determined and compared to a threshold value and flash is then asserted when the threshold level is exceeded. The primary reason for allowance of claims 11 and 13-19 is the claim 11 and 19 limitation for a distance evaluator that selectively asserts the flash control signal based on distance information of a point in the subject group and a point in the background group.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
